

ECOSYSTEM FOR INNOVATIVE IDEAS

Cluster of  
Manufacturing Innovators - CoMI

# In beginning and today

- April 27, 2020 start - 8 companies
- December, 2021 - 19 companies

Coordinator of the Cluster JSC "Pažangios Inovacijos",  
part of Arginta Group

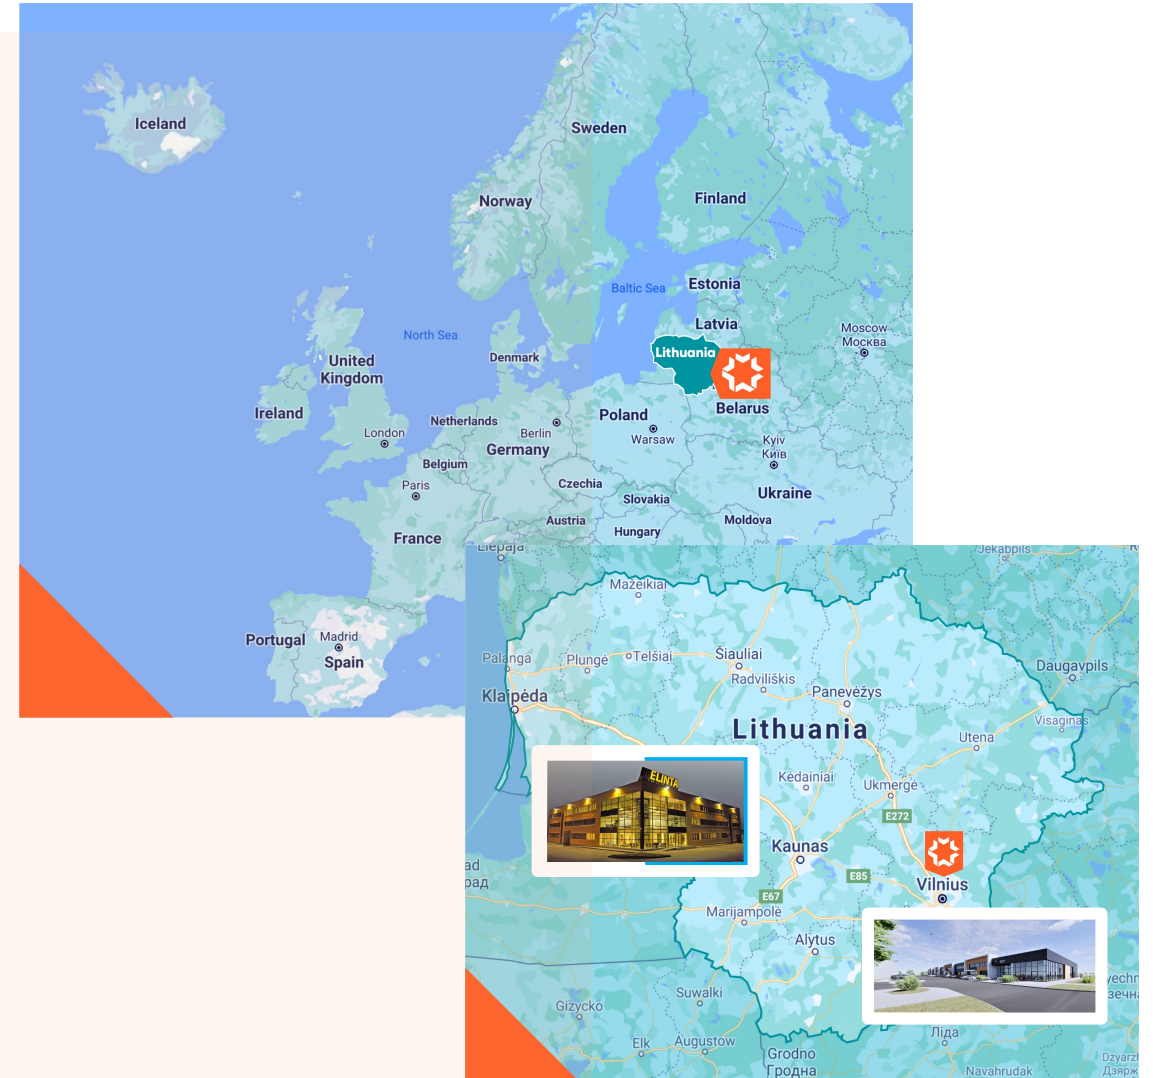

# One-stop shop for companies to innovate

*Our mission* is to create the environment of ultimate convenience for developers of technologies and manufacturers of products from Lithuania and abroad.

*Our vision* is to be the first choice for those developing manufacturing technologies and products in the Baltic States.

*Our ambition* is to bring the latest industrial innovation trends to the Baltic States.

# We focus on future and offer

- » Services and facilities for small manufacturing enterprises, start-ups, R&D centers, individual developers and researchers.
- » Consultations on megatrends and drivers for manufacturing
- » Prototyping services and consultations, while creating new products
- » Business incubation and acceleration
- » Showroom with latest industrial infrastructures
- » R&D&I networking access to other digital innovation hubs in Lithuania and the EU

**Baltled receives  
€ 450,000  
in COVID-19 grant  
funding from the  
EIT Manufacturing**

EIT Manufacturing is supported by the EIT,  
a body of the European Union

Proposed Research and Innovation Priority Domains	
Enabling technologies and approaches	Manufacturing strategies
1. Manufacturing technology and processes	6. Customer driven manufacturing
2. Digital transformation	7. Human centred manufacturing
3. Robotics and flexible automation	8. Agile manufacturing systems design and management
4. Nano-technology and new materials	9. Circular economy, resource and energy efficiency
5. Biological transformation of products, processes and value creation	10. New business models and logistics networks

2014-2020 Operational Programme for the European Union Funds Investments in Lithuania

**InterInoLT - the Initiative of the  
Lithuanian Confederation of Industrialists**

**We connecting you with just the right partners in Lithuania!**

We are a team of **national and international innovation experts** representing the pool of more than **1000 innovative companies**

**Our companies is a Cluster from innovative Sectors of:**

- Engineering & Manufacturing
- ICT
- Energy
- AgriFood
- Robotics
- Life Science

Major umbrella organization in Lithuania which represents the interests of large/medium industrialists and employers. It unites 51 branch and 5 regional associations which comprise over 3000 medium and large enterprises from various public and private sectors.

Member of:    

# Why Cluster of Manufacturing Innovators?

Appropriate safe **environment to demonstrate** manufacturing technologies, only competent specialists will use it

**Premises adjusted** to demonstrational equipment

Possibility to use the equipment for manufacturing **demonstrations and trainings**

Services of **prototyping** laboratory

No need to participate in trade shows, **customers come to you**

The **State support** up to 50 percent for **consultations and proof of concept** activities is available

Our innovation **consultants will help your customers** to understand your equipment

Opportunity for your **employees** to be involved **into** the **innovation consulting** process

**Co-working facilities** for Operators, Application Engineers, CAM technologists

**Event organisation services** Various other consultations and services, as needed

Access to the services of other **Digital innovation hubs in Lithuania** and the EU
